

Glass Board

Frameless or chrome frame

Smooth tempered glass takes your workspace to another level. Magnetically functional, beautifully frameless, and built to last. The frosted backing improves marker visibility while the sleek profile elevates any contemporary office or collaborative space.

Features

- Magnetic tempered glass [4 mm]
- Optional stand for mobility [Black stand + Chrome frame]

Glass Boards bring a level of clarity and presence to any room that other surfaces simply can't replicate. Precise enough for the most detail-driven sessions, refined enough for the most design-conscious spaces. They sit where serious functionality meets considered aesthetics, without having to choose between the two.
